

- Artist and Creative Tutor
- 20 years Art & Design Teaching Experience
- Workshop Facilitator & Trainer
- Community Driven esp. with Intergenerational work

The VE intergenerational challenge is the sixth project from Creation Generation. Its slightly different this week. As with all the challenges, you can scroll through the slides at your leisure and print off templates or the whole presentation if you want to! BUT there are no levels this week. The Creation Generation artists range from age 2 to 70+ .All abilities welcome but we all do the same. This project is in collaboration with Yeovil Town Council.

All I ask if that you enjoy yourself and you share with me what you create by emailing me and/or posting pictures on my FB page: Natasha Rand Creation Generation (like or follow me if you haven't done so already). It is my intention to collate, collage and create large scale pieces of the art we have created, as a community. Who knows we may even exhibit what we make when this surreal and unsettling time of COVID 19 has passed! Let's begin..... Let's Create....Let's Make Art Together!

Visit www.creation-generation.org – online gallery available soon. Past challenges available.

PS Can I ask that you send back the GDPR form I have mailed you or send written email consent giving me permission to share your photos and send you info. Thanks.

75th VE Day Celebrations

Art Challenge 6

Next week's challenge is VERY special VE 75th Anniversary celebrations

This is a fabulous project with had been planned as an Intergenerational Project with several local care & community settings and schools. Due to Convid 19 it had to be cancelled. I would love to see you all help to keep the idea alive. It is such a special event and should be remembered. Do it for Captain Tom and this generation. I would love to see ALL AGES involved.

Please help to keep the project going but in this virtual way. Thanks Natasha x

On the 8th May 1945 the Nazis surrendered and victory in Europe was declared. Sadly millions had died, but the millions who had been saved were able to celebrate the end of a six year world war and the VE Day parties went on for quite some time!

8th May 2020
75 years on Yeovil town
were preparing to remember
this wonderful historical occasion....
and celebrate in style.

This challenge was to be INTERGENERATIONAL Project with 8 schools and 8 care-homes had been partnered together and were working on the decorations for the Yeovil town event. South Petherton Arts Society and Martock Parish Council were also involved. There work was to hang in the Yeovil town library and line the streets in the 1st week of May. Of course this had to be cancelled.

2 school sessions at Huish Primary and St. Margaret's Primary did take part but sadly never got to work with their care home residents.

Young and old creating bunting together for the 8th May 2020 celebrations. Sadly this sessions are unable to happen after months of planning due to Convid 19.

YEOVIL VE DAY

8th & 9th May 1945

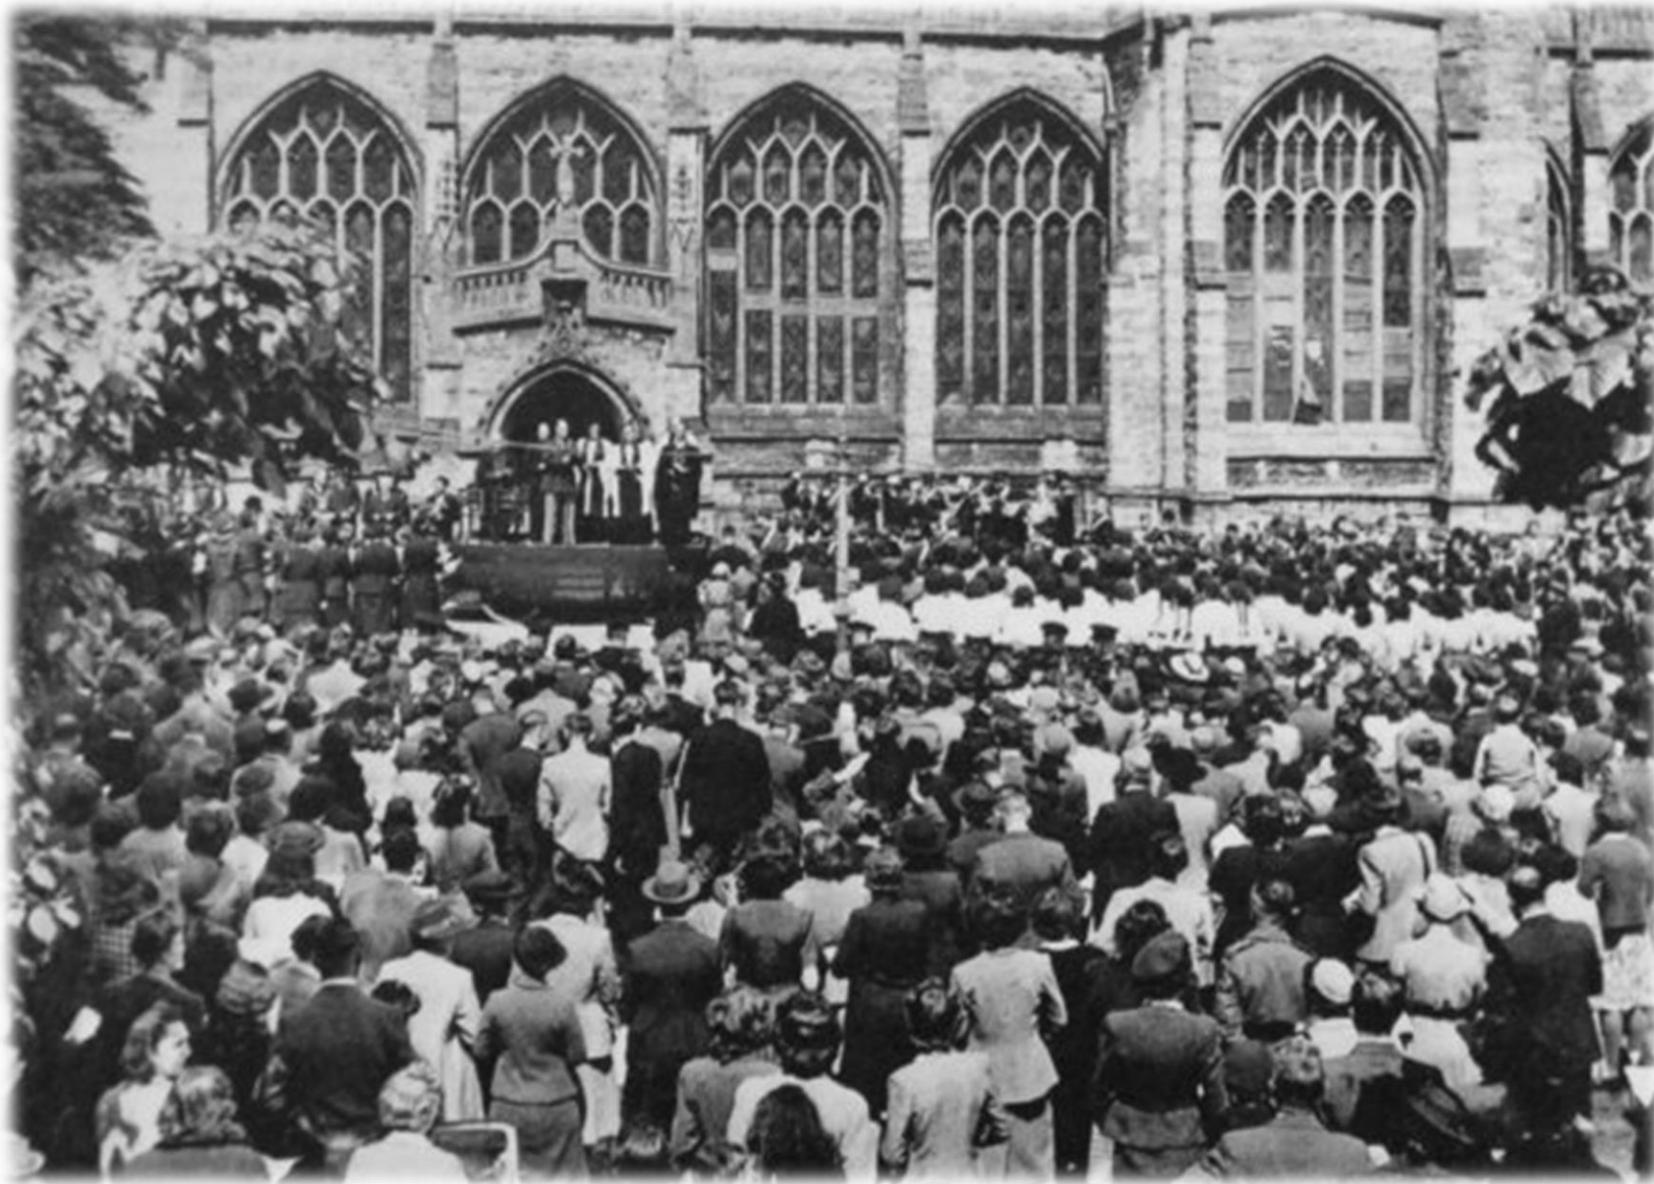

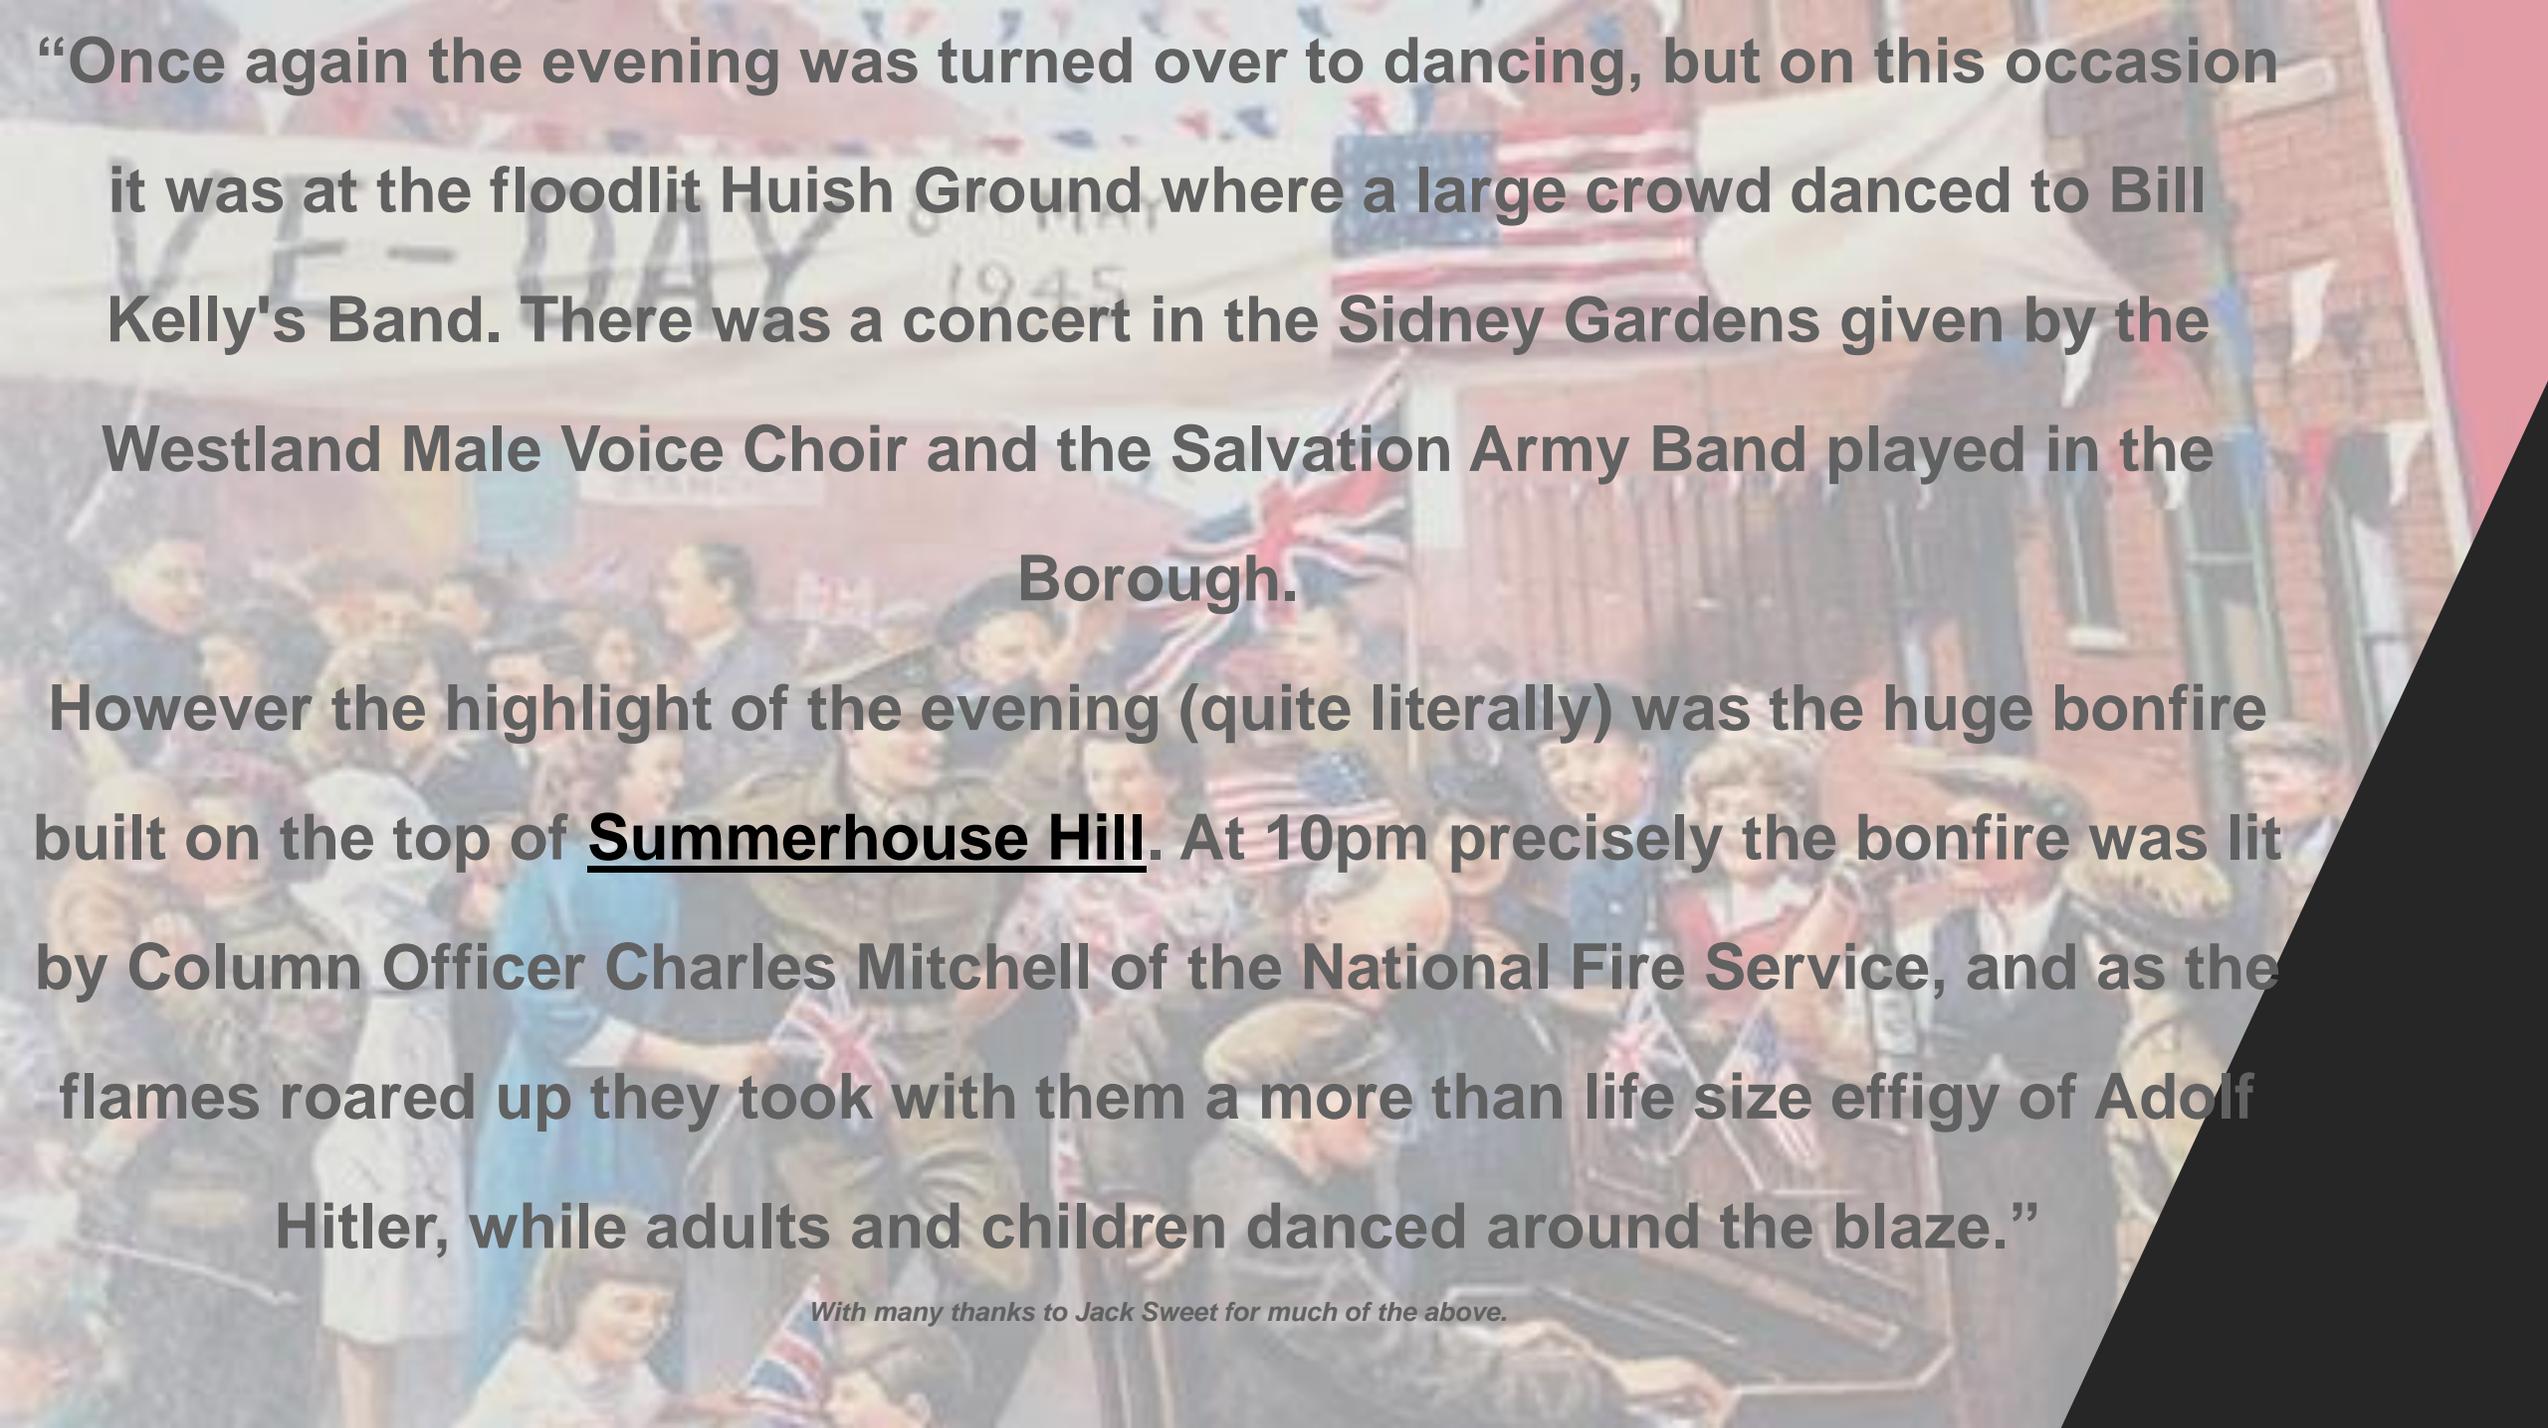

“The Western Gazette reported “The scenes at Yeovil on the night of VE Day were unequalled on any occasion within memory. The mood of the crowd was one of unrestrained jubilation. Hundreds whirled around in fantastic dances, jitterbugging, laughing, singing and shouting. Music was played by Bill Kelly and his Band and relayed through amplifiers on a National Fire Service van.”

“In the centre of town [St John's](#) grey walls that had withstood bombs in 1941, although some of the windows were damaged, were floodlit. Crowds gathered there, seeking the sense of quietude and peace that were to be found only a stone's throw from the joyous shouts and whirling thousands in the Borough. Tired momentarily with dancing and hoarse from shouting, they lay at ease on the floodlit grass.”

Crowds packed St John's churchyard for another Thanksgiving Service during the afternoon of VE Day plus one 9th May 1945.

“Once again the evening was turned over to dancing, but on this occasion it was at the floodlit Huish Ground where a large crowd danced to Bill Kelly's Band. There was a concert in the Sidney Gardens given by the Westland Male Voice Choir and the Salvation Army Band played in the Borough.

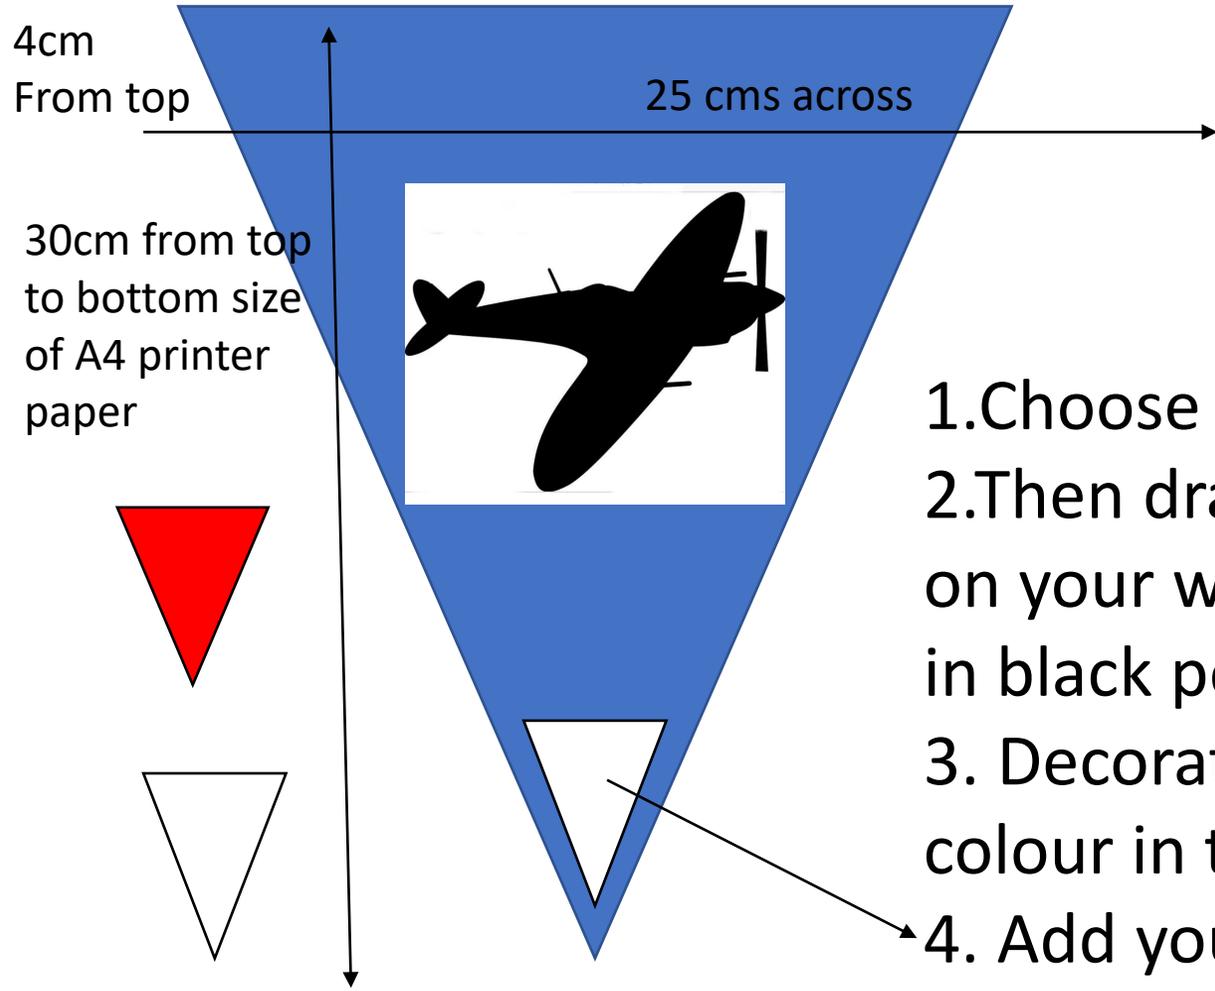

However the highlight of the evening (quite literally) was the huge bonfire built on the top of Summerhouse Hill. At 10pm precisely the bonfire was lit by Column Officer Charles Mitchell of the National Fire Service, and as the flames roared up they took with them a more than life size effigy of Adolf Hitler, while adults and children danced around the blaze.”

With many thanks to Jack Sweet for much of the above.

You will create your triangle piece of bunting – using black outlines and red, white and blue as your colours.

Use a red, white or blue triangle

I'll be posting a video on my FB page and website on how to make your bunting piece

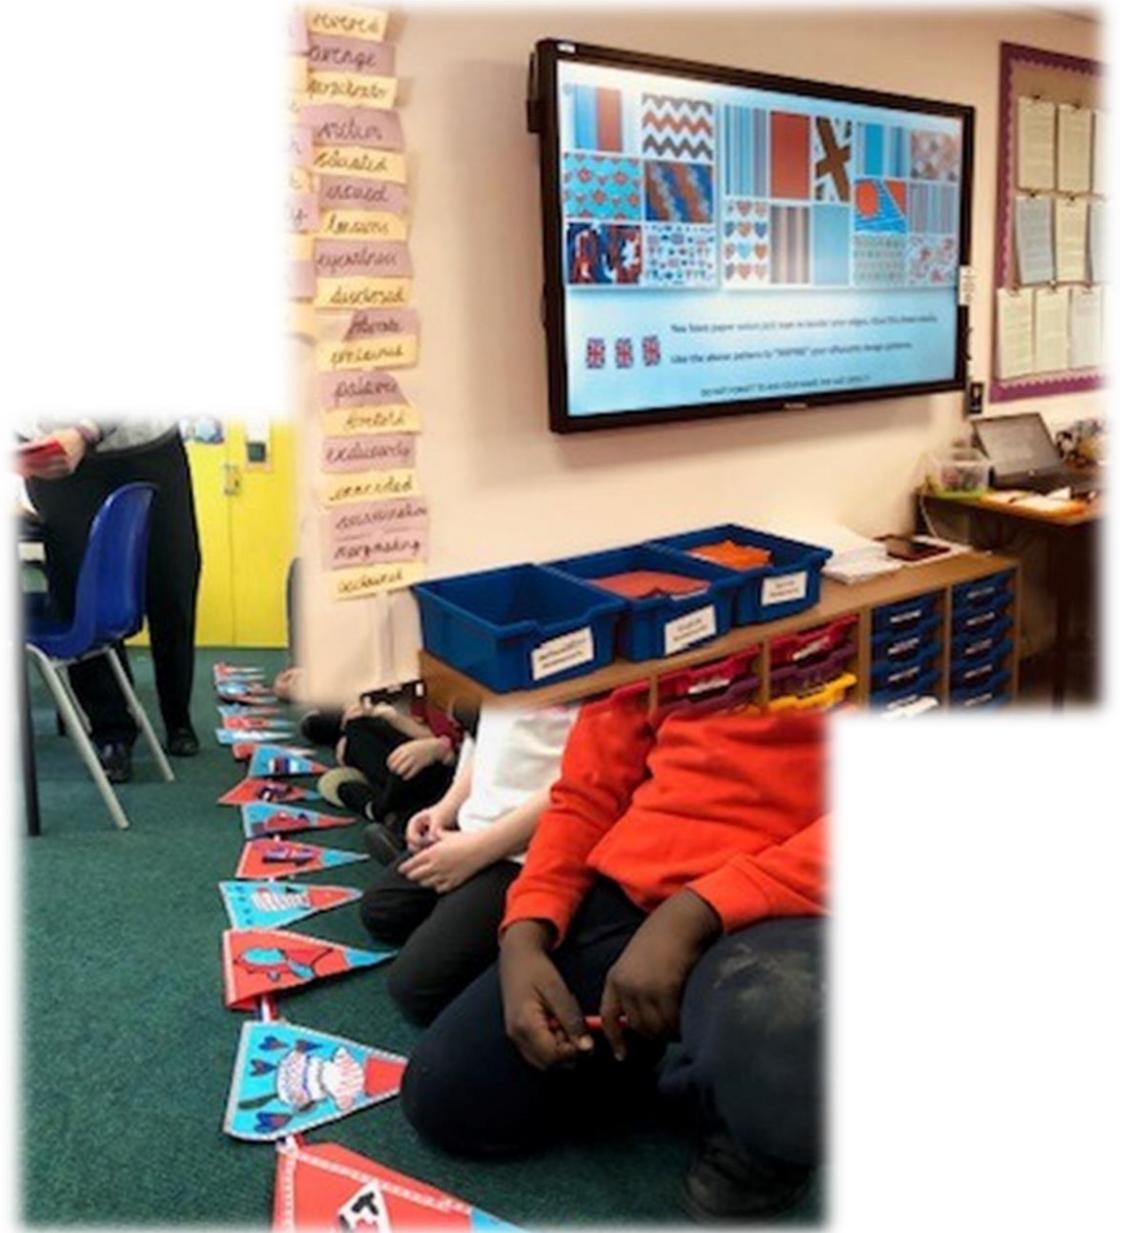

FOLD your piece HERE

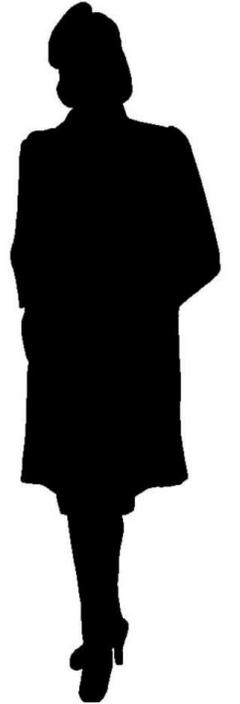

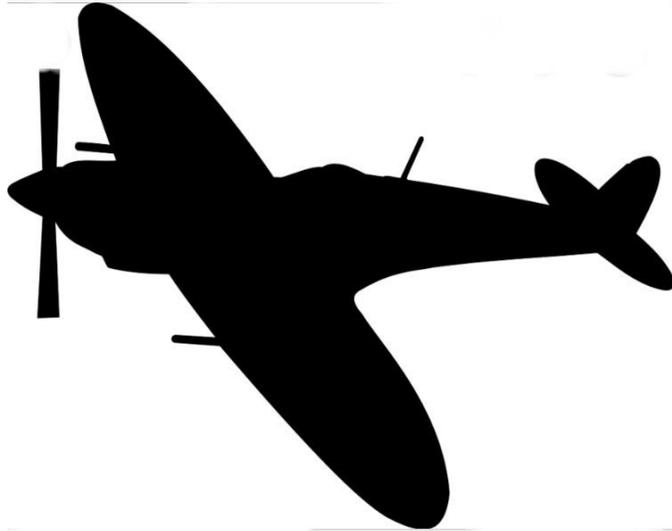

1. Choose your design.
2. Then draw around your silhouette template on your white paper, first in pencil and then in black pen.
3. Decorate your design with pattern or colour in to create a black silhouette.
4. Add your "triangle" Name and Age tag
I'd love to see from 9 months 99 years on these tags!

Photos of two school sessions that did take place.

Design Shapes and templates

Paper union jack tape to border your edges looks great. Glue this down neatly.

Use the above pattern to “INSPIRE” your silhouette design patterns.

DO NOT FORGET TO ADD YOUR NAME AND AGE LABEL!!!!

Yeovil Town Council and Yeovil Library would like to share this challenge.

We would like to see photos of your bunting hanging in preparation for 8th May.

Hang your bunting around your home or in weatherproof it and hang it outside your house or in your garden.

ALL AGES ARE WELCOME TO GET INVOLVED

Whatever you make your VE celebrations bunting from or wherever you hang it we'd like you to photograph it and send it to

info@creation-generation.org or share on FB Natasha Rand Creation Generation

Then we will display in the public spaces but virtually.

Thank you for helping us to
celebrate and remember.
